

## Dive Accident Insurance

Due to the fact that the Flower Garden Banks National Marine Sanctuary is over 115 miles off the Texas-Louisiana coastline, it is imperative that all divers aboard the dive vessel have Dive Accident Insurance.

If you do not have insurance that covers helicopter evacuation and chamber treatment, or if your insurance covers it, but you have a deductible and per cent co-pay, you may want to consider purchasing Divers Alert Network (DAN) insurance (or comparable insurance through another organization).

Divers Alert Network (DAN) offers varying levels of insurance that cover ordinary travel situations as well as dive trips. As the second insurer, DAN will pay your deductible and co-pay, up to the limit on your selected DAN Dive Accident Insurance plan. Any of the Dive Accident Insurance plans offered by DAN are acceptable.

You can contact DAN Membership Services at:  
1.800.446.2671

Or enroll on-line at the DAN website:  
[www.DiversAlertNetwork.org](http://www.DiversAlertNetwork.org)

**Note:** There may be other insurers available. This just happens to be the most established and well-known entity for diving medical information and insurance.
