Edna's Stephen. F. Austin Elementary School Science-Spanish Club participated in the Matagorda Beach Beach Clean up on Saturday, September 22, 2007. The students enjoyed participating in the beach clean-up, and then rewarded themselves with a dip in the water afterwards!!

Several of the Science-Spanish Club members are also members of the "Watt Watchers" team at S. F. Austin School. Energy conservation is the main concern of this group. They walk around the school and reward classrooms that are conserving electricity.

Many of the weekly SSC meetings prepared us for the BIG 15th Anniversary commemoration of the Mary Rhodes Pipeline at the 9th Annual Earth Day/Bay Day in Corpus Christi @

Cole Park on April 18, 2008. This pipeline from Lake Texana in Jackson County carries water to the City of Corpus Christi under a 42-year contract that began in 1993. A large group of our members and representatives of the Lavaca-Navidad River Authority attended. A good time was had by all that attended!
