Throughout the year the Science and Spanish Club was involved in various activities on and off campus. We continue to participate in the Texas General Land Office Adopt-A a Beach Cleanups, the Aransas Pass "Say No to Trash Parade", Earth Day Bay Day, and Ecology=Economy week activities.

This year we were also fortunate to visit the South Texas Nuclear Power Plant and we also created a new partnership with Goose Island State

Park. The Marsh Restoration Project at Goose Island has had a positive impact on the students as well as the volunteer staff that joins the club on our fieldtrips.

The Sinton Science and Spanish Club continues to grow and is gaining positive recognition within our campus and community for the great work that we do throughout the year. I anticipate great things in the future.
